Power Order Form

This year, due to the complex power requirements of traders, we will be implementing a power order system. This is to ensure that a fair price is levied to all traders, and people are not paying similar amounts for their stalls, despite having much larger power requirements, which obviously has to be covered by stall holder's fees.

We have taken the decision to **not increase** the stall fee this year, but implement this system instead.

Power requirements must be exact. We will not be responsible for traders who have failed to declare power requirements, and therefore do not have power issued on the day. Any on the day requests for additional power will be subject to a different price list, plus surcharge for emergency unarranged power provision.

Name of Stall

Type of Stall

Quantity (e.g. 1x)	Power Type	Cost per item 2 days
	Twin 13amp socket with 500W load	£20.00
	Twin 13amp socket with 1000W load	£55.00
	Twin 13amp socket with 2000W load	£70.00
	Twin 13amp socket with 3000W load	£90.00
	Single 16A socket with 4000W load	£110.00

We are also providing additional equipment if you may require it on a hire and install basis during festival hours

1 x 500W Floodlight	£25.00
---------------------	--------

Detailed below are guidelines for a **SINGLE** socket load you may need to double the loading for twin sockets depending on your requirements. It is important you order the correct size load for your power requirements as alterations will be subject to additional charges. The amount of power each item draws is usually shown on a sticker on your appliance, normally by the power cable.

500 Watts (2.5 amps) Suitable for TV, video, computer, office equipment, turntable, oscillating fan, portable phone, 5 x clients own approved clip-on spotlights*.

1000 Watts (5 amps) Suitable for fridge (24hr), kettle, iron, vacuum, 10 x clients own approved clip-on spotlights*.

2000 Watts (10 amps) Suitable for chill cabinet (24hr), chest freezer (24hr), hot plate, small machine.

3000 Watts (13 amps) Suitable for coffee percolator, water boiler or combination of above appliances.

4000 Watts High voltage power supply for trailers and other catering units, cookers, turbo ovens

Oyé

Force Majeure.

The Contractor shall have no liability in respect of failure to deliver or perform any obligations under the contract due to any cause outside of our reasonable control including but not limited to acts of God, fire, floods, war and civil disturbances or riot, acts of Government, labour disputes, strikes, unavailability of materials or failure of supplier carrier or sub-contractor to deliver on time. The Contractor does not under any circumstances accept liability for damage to or loss of information from third parties electrical equipment due to power failure howsoever caused.

I agree to this order and the terms and conditions stated above
